CORE SKILLS AND COMPETENCIES:

Over the period of 11 years as a computer scientist and a GIS Professional, I have acquired technical skills and hands on experience in the areas of Geographical Information Systems Development, system administration, software development, Information System Management, Server Management, programming, networking, internet banking, and troubleshooting related problems. I acquired this wealth of knowledge during my tenure as the Information Communication and Technology (ICT) Officer with Ministry of Lands, Information Technology /Banking Assistant at Crane Bank Uganda Limited and a volunteer with the International Rescue Committee (IRC), Kampala. I am currently a team leader with Ministry of Lands, and I have great leadership and communication skills. I have provided strategic direction to the team at Ministry of Lands-on-lands information management including software development, roll out and implementation. I am results- oriented, hardworking and a team player with high integrity. I also provided technical oversight and support to regional offices including monitoring and evaluating the functionality of the services installed.

Technical Competences:

- Database management
- Geographical Information System Development
- Networking
- Capacity building, mentoring, and coaching of staff and users on lands information systems and other technical areas.
- Development of information/ database management systems
- Providing financial/budgetary support to the Ministry of Lands
- Design, oversight, and implementation of lands information systems software

WORK EXPERIENCE:

MAJOR ACHIEVEMENTS

In the 7 years as an information and communication technology professional, I have registered to mention but a few of the achievements listed below:

- Deputy In Charge of the National Land Information Centre.
- Leading a team in the software Development section at Ministry of Lands that is responsible for the maintenance of the Uganda Land Information System UgnLIS
- Developed a fit for purpose GIS (Systematic Land Adjudication And certification Software) under funding by World Bank for the Ministry of Lands, Housing and Urban Development
- Developed an API (Application Programming Interface) for Ministry of Lands Housing and Urban Development for sharing land information with other Government Agencies, as requested by NITA-U
- Developed the Document management Information System for National Land Information centre
- Set up and managed the Geospatial Data Processing Centre at the Department for Surveys and Mappings.
- Deployed the current and latest version of the Uganda Land Information System UgnLIS, to all the 22 ministry zonal offices including Uganda Land Commission
- Duplicating MZO UgnLIS into testing environment with working UgnLIS software and data
- Supporting all the 22 zonal offices on the application and data related issues
- Customized the UgnLIS from the UgnLIS source code
- Customized business rules in the Uganda land Information system
- Fixed bugs and other related system issues in the Uganda land Information System
- Developed a document management System for Ministry of Lands Housing and Urban Development
- Documenting all procedures and solutions for the bugs fixed in the application
- Participated in the Migration of the Legacy System (data) to the UgnLIS

EDUCATION

| Month and year | Qualification | Institution |
|-------------------------------|---|--|
| 2023 - 2024 | Graduate Student of MS in Cartography and Geographical Information System Development | University of Wisconsin – Madison, USA |
| 2022 JANUARY To 2022 DECEMBER | Capstone Certificate in Cartography and GIS Development | University of Wisconsin – Madison, USA |
| 2008 to 2011 | Bachelor's degree of Science in Computer Science (Second Class Upper) | Uganda Christian University, Mukono, Uganda. |

CERTIFICATES ATTAINED AND TRAININGS UNDERTAKEN:

Relevant Training and Certificates Attained:

| Year | Training/ Certificate awarded | Institution |
|------|---|-----------------------------|
| 2020 | Certificate in Programming for Data Science with Python | Udacity |
| 2015 | Information Management Technology (ICT) Training | Makerere ICT Solutions |
| 2014 | Certificate in CCNA | Aptech Computer Education |
| 2011 | Certificate of merit in academic excellent performance | Uganda Christian University |
| 2010 | Certificate in Systems Administration | ICT Labs, Ntinda |
